

METROPOLITAN COMMUNITY CLINIC AT HELLINIKO

with the cooperation and support of the Municipality of Helliniko-Argyroupolis

Nätverket för Grekland

Sweden

Helliniko, 7/09/2018

Reference number 1194

Dear members of Nätverket för Grekland, Dear Mr. Pournaras.

Our sincere gratitude for your continuous support and your donation to the Metropolitan Community Clinic Helliniko. We would like you to know that the medicines Mr. Pournaras brought to the clinic on Saturday, the 1st of September 2018 and which you have so generously offered to MCCH will be of great help to our patients.

From all of us, the volunteers of the clinic, actions such as yours are especially important as they encourage us in our difficult work, give us hope and it is good to know that people care.

MCCH began operation on December 15th, 2011. Our basic goal is to provide cost-free primary medical and pharmaceutical care to the un-insured, the unemployed and the needy who are affected by the economic crisis. We also want to highlight the disastrous problem in our society brought on by the breakdown of the Public Health System and the Greek National Health Service.

The clinic is located in a building provided to us by the Municipality of Helliniko-Argyroupolis. Medicines **that have not expired**, medical equipment and supplies come entirely from donations from individuals or organizations who support MCCH.

Operating hours

(Monday - Friday 10:00-20:00) and (Saturday 10:00 - 14:00)

Telephone: 210 9631950

Address: inside the former American Base

(next to the community center of Helliniko, 200 meters from the traffic police)

METROPOLITAN COMMUNITY CLINIC AT HELLINIKO

with the cooperation and support of the Municipality of Helliniko-Argyroupolis

The clinic is organized and staffed by more than 150 volunteers working in different groups and come from many different backgrounds, but they all support the right to health care for all citizens.

MCCH receives support from individuals and organizations in Greece and from all over the world. This is due to the Clinic's refusal of monetary donations, complete transparency and open communication along with the unending efforts of its volunteers who accept no payment for their work.

MCCH has conducted more than 65,000 patient's visits up to now and offers medicines and medical supplies to Public hospitals, free clinics such as ours and NGOs that help immigrants & refugees. We also support more than 150 children with infant formula, milk for toddlers, fruit creams and diapers on a monthly basis.

Your help and support give us the strength to carry on so that

“NO ONE IS ALONE IN THE CRISIS”

Kind regards,

Maritta Corley

MCCH volunteer
